

MEET THE NEW SWING CHECK VALVE

Fire Protection Products

HIGHRISER Swing Check Valve Groove Type

5201-365-GGI
5201-365-GGP

We would like to introduce the enhanced model of FIVALCO Highriser Swing Check Valve Groove Type.

This swing check valve has two types which are horizontal model (5201-365-GGI) and vertical model (5201-365-GGP).

It is widely used with various configurations in fire pump room, fire sprinkler systems, fire department connections, gravity pressure tank or by-pass connections etc.

The exterior of the check valve is coated with fusion bonded epoxy code RAL 3002.

Working Pressure: 25bar / 365psi
Working Temperature: 0°C ... 80°C

Do contact your local representative or our regional business development team for details!

Note: The previous models GSC-365-I & GSC-365-R have been discontinued and replaced with 5201-365-GGI & 5201-365-GGP.

“
Our primary mission is to continue to provide the highest quality products to our discerning customers from time to time.
